§ 178.93

piercing ammunition shall armor clearly and conspicuously label each package in which armor piercing ammunition is contained, e.g., each box, carton, case, or other container. The label shall include the words "ARMOR PIERCING" in block letters at least 1/4 inch in height. The lettering shall be located on the exterior surface of the package which contains information concerning the caliber or gauge of the ammunition. There shall also be placed on the same surface of the package in block lettering at least 1/8 inch in height the words "FOR GOVERN-MENTAL ENTITIES OR EXPOR-TATION ONLY." The statements required by this subparagraph shall be on a contrasting background.

- (c) Large capacity ammunition feeding devices manufactured after September 13, 1994. (1) Each person who manufactures or imports any large capacity ammunition feeding device manufactured after September 13, 1994, shall legibly identify each such device with a serial number. Such person may use the same serial number for all large capacity ammunition feeding devices produced.
- (i) Additionally, in the case of a domestically made large capacity ammunition feeding device, such device shall be marked with the name, city and State (or recognized abbreviation thereof) of the manufacturer;
- (ii) And in the case of an imported large capacity ammunition feeding device, such device shall be marked:
- (A) With the name of the manufacturer, country of origin, and,
- (B) Effective July 5, 1995, the name, city and State (or recognized abbreviation thereof) of the importer.
- (iii) Further, large capacity ammunition feeding devices manufactured after September 13, 1994, shall be marked "RESTRICTED LAW ENFORCEMENT/GOVERNMENT USE ONLY" or, in the case of devices manufactured or imported for export, effective July 5, 1995, "FOR EXPORT ONLY."
- (2) All markings required by this paragraph (c) shall be cast, stamped, or engraved on the exterior of the device. In the case of a magazine, the markings shall be placed on the magazine body.

- (3) Exceptions—(i) Metallic links. Persons who manufacture or import metallic links for use in the assembly of belted ammunition are only required to place the identification marks prescribed in paragraph (c)(1) of this section on the containers used for the packaging of the links.
- (ii) Alternate means of identification. The Director may authorize other means of identifying large capacity ammunition feeding devices upon receipt of a letter application, in duplicate, from the manufacturer or importer showing that such other identification is reasonable and will not hinder the effective administration of this part.

[T.D. ATF-270, 53 FR 10496, Mar. 31, 1988, as amended by T.D. ATF-363, 60 FR 17454, Apr. 6, 1995; T.D. ATF-383, 61 FR 39321, July 29, 1996; T.D. ATF-396, 63 FR 12646, Mar. 16, 1998]

§ 178.93 Authorized operations by a licensed collector.

The license issued to a collector of curios or relics under the provisions of this part shall cover only transactions by the licensed collector in curios and relics. The collector's license is of no force or effect and a licensed collector is of the same status under the Act and this part as a nonlicensee with respect to (a) any acquisition or disposition of firearms other than curios or relics, or any transportation, shipment, or receipt of firearms other than curios or relics in interstate or foreign commerce, and (b) any transaction with a nonlicensee involving any firearm other than a curio or relic. (See also §178.50.) A collectors license is not necessary to receive or dispose of ammunition, and a licensed collector is not precluded by law from receiving or disposing of armor piercing ammunition. However, a licensed collector may not dispose of any ammunition to a person prohibited from receiving or possessing ammunition (see §178.99(c)). Any licensed collector who disposes of armor piercing ammunition must record the disposition as required by §178.125 (a) and (b).
